

Your Security Is Our Priority

TSOLife takes great care in ensuring that your information, and your residents' information, stays safe and secure.

Robust Data Security

Your data is safeguarded with state-of-the-art encryption, both in transit and at rest, on trusted AWS servers. For nearly a decade, TSOLife has maintained an impeccable track record with no data breaches or security incidents.

Device-Free Storage

We ensure your privacy by never saving or storing interview information on the device being used. This extra layer of protection keeps your data secure at all times.

Controlled Access

Only authorized community staff have access to resident information. TSOLife ensures that no resident data is ever shared with third-party vendors, prioritizing your privacy and trust.

No 3rd-Party Sharing
